

## Bottle Dispenser

### Category: Home and kitchen

#### MARKET

The kitchen consumer durables is a large market, such sauces and honey are consumed in huge quantity, places like KFC and McDonald's need clean and hygienic system. Most urban ladies would want this.

#### MANUFACTURING

It's a metal plastic combination, can be made in bulk and cheaply. Can be mounted on any threaded bottle.

#### OBSERVATION / TREND / PROBLEM

##### Observation

- Many Oil, Honey and sauce bottles have dripping and a lot remains in the cap
- The cap over time becomes sticky and attracts flies.
- A controlled flow is needed in these kind of liquids, as the fluids are thick and needed in small quantities.

#### OVERVIEW OF THE IDEA

The Solution is a unique dispenser cap that gives a controlled flow and has a gradient dependent flow control. Although there are systems that have tried it, ours is metallic and combined with a new material to ensure no liquid stays in the dispenser.

#### VALUE

The container would be free of stains, no drippy liquids and easy to clean.

#### VARIANTS

The product can be made in different sizes, colors, with different finishes. Can be made for different bottle sizes.
